

Brainstorming & Idea Prioritization Template

Date 30 September 2026Team ID SWTID-2026-5550

Project Name Legalease: AI-powered legal document generationMaximum Marks 3 Marks

Team Members

Team Leader: Muthu M | M Deepak Shankaran | Dhuvanesh M | Monish | Navin A

Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	Muthu M	AI-powered legal document generation with guided templates	AI / LegalTech	1
2	M Deepak Shankaran	Clause suggestions and document customization based on user input	AI / LegalTech	1
3	Dhuvanesh M	Legal document validation and missing-clause detection	Validation	2
4	Monish	Simple questionnaire to collect case and document requirements	User Experience	2
5	Navin A	Downloadable, structured documents with version history	Document Management	3
6	Team	Privacy-focused processing and clear legal-use disclaimer	Privacy / Safety	3

Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

Group No.	Final Idea	Feasibility (High/Medium/Low)	Importance (High/Medium/Low)	Priority Selected (Yes/No)
1	AI-powered legal document generator	High	High	Yes
2	Legal document validation and requirement guidance	Medium	High	Yes
3	Privacy, versioning and downloadable document support	High	Medium	Yes
