Project Name lease:AI-powered legal document generator

Maximum Marks 4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS - I need a legal document quickly. - I am not sure what information is required. - I want the document to be clear and easy to edit.	THINKS - Will the document include the necessary clauses? - I want to avoid mistakes or missing details. - Can I understand the generated document?
DOES - Provides basic case and document details. - Reviews the generated document. - Edits or downloads the final document.	FEELS - Concerned about making legal-document errors. - Relieved when the process is simple. - More confident with clear guidance.
PERSONA NAME: Individual seeking a legal document (Role / User Type)
