Project Name Legalease: AI-powered legal document generator

Maximum Marks 5 Marks

Problem-Solution Fit Canvas

Use the framework below to ensure your proposed solution accurately addresses the root causes, behaviors, and limitations of your target audience. Fill out the canvas in the respective boxes just like the original visual template.

1. CUSTOMER SEGMENT(S) [CS] Primary users: students, small businesses, individuals and legal-service seekers who need clear, structured legal documents.	6. CUSTOMER LIMITATIONS [CL] Budget constraints, limited legal knowledge, limited time, varying digital skills and access primarily through common web-enabled devices.
2. PROBLEMS / PAINS + ITS FREQUENCY [PR] Difficulty drafting legally structured documents; confusing legal language; repeated manual editing; uncertainty about required clauses. Often encountered whenever a document is needed.	7. BEHAVIOR + ITS INTENSITY [BE] Users search for examples/templates, reuse previous documents, ask for guidance and revise drafts repeatedly. Intensity increases when documents are urgent or legally important.
3. TRIGGERS TO ACT [TR] Need to create a document quickly, a new legal/business requirement, lack of legal drafting expertise, or the need to convert requirements into a usable document.	8. CHANNELS OF BEHAVIOR [CH] ONLINE: web search, web application, email and digital document sharing. OFFLINE: educational institutions, workplaces, local businesses and personal referrals.
4. EMOTIONS BEFORE / AFTER [EM] Before: confusion, uncertainty and stress. After: greater clarity, confidence and convenience when generating a structured document.	9. PROBLEM ROOT / CAUSE [RC] Legal drafting requires domain knowledge, formal structure and careful wording. Existing generic tools may not understand the user's context or produce a suitable document structure.
5. AVAILABLE SOLUTIONS PROS & CONS [AS] Manual drafting: flexible but time-consuming. Templates: faster but may not fit the situation. Professional legal help: expert guidance but can be costly or less immediate.	10. YOUR SOLUTION [SL] Legalease: an AI-powered legal document generator that collects user requirements, generates structured legal documents using AI-assisted drafting, supports editable document output, and simplifies the drafting workflow.
